

YES Youth Entrepreneurial Services

INNOVATE • CREATE • ENGAGE

Youth Entrepreneurial Services exists to promote young people's creative skills and employment potential through innovation, creativity and engagement in career development.

- YES participants will be between 15 and 24 years of age and will gain high quality job-seeking skills through in-house programs such as 'Coaching Young People for Success' and 'Ready Set Job'.
- One of our key outcomes is that participants will have a clear employment pathway and will achieve employment, further education or certified training.
- Experiential learning is a key component to delivery of the YES initiative.
- YES coordinates support around the participants to help realise their unique potential in the form of youth and employment coaches, community mentors, skills specialists and business hosts.
- Training and career development is tailored to suit individual circumstances and builds an employment folio for the participant.
- Participants in the YES program will gain knowledge and practical experience in design, manufacture, promotion, IT, web-design, stock control, administration, retail and management.
- YES will facilitate real, immediate exposure to the world of work and the satisfaction of achievement.
- YES will provide immediate and ongoing support to plan for future employment goals and prospects.
- YES can tailor the hours of participation to suit individual circumstances.

Referral forms and further information can be found on our website.
